Ig Infusion Therapy: Neuro

CVS Specialty® and Coram® CVS Specialty® Infusion Services (Coram) work together to dispense and administer infused therapy for patients with neurological autoimmune disease. We provide the personalized treatment and professional service you and your patients have come to know and expect.

Robust distribution, coordinated delivery

- Access to FDA-approved Ig therapy products dispensed and managed by Ig-experienced pharmacists
- Direct manufacturer relationships and large inventory make us one of the largest commercial providers of Ig products in the U.S.
- Centralized admissions, streamlined prior authorization and clinical appeals support help coordinate care across your patient's journey

High-quality infusion care and support

- Experienced Ig CareTeam (e.g., pharmacists, clinicians, patient care coordinators) specially trained in Ig conditions and infusion therapy
- Nationwide network of Coram registered nurses provide hands-on support, education and training for Ig patients and caregivers
- Understanding needs of patients with chronic inflammatory demyelinating polyneuropathy (CIDP) and many neurological indications currently under investigation

Patient safety, ongoing management

- Safe and convenient treatment options at-home, in our local ambulatory infusion suites or even shipped to your physician office
- Standard of care protocols for initial and ongoing patient assessments to help support appropriate therapy management and continuity of care

Start Ig Infusion Therapy for your patients today:

Call **1-866-899-1661** or fax **1-866-843-3221** for questions. Go to **CVSSpecialty.com > For Healthcare Providers** to access our Ig enrollment form or contact your local representative. To avoid delays, please complete the enrollment form in its entirety.
